Wyoming County Public Map

Find address or place

Use the search bar to search data by address or pacel ID number

If your device has location capability you can use the location tool here.

Selecting this will give you a listing of all available data layers that you can turn off and on.

Selecting this will allow you to choose different types of basemaps (backgrounds) for your map.

Clicking here will give you the opportunity to bookmark locations that you may want to go back to often. Once added you can choose it here to return to that location.

Clicking here will allow you to print the current screen to your default printer choice.

This data will show you the Latitude/Longitude coordinates based on whereever your mouse cursor is located.

Clicking on this tab will show you the "Behind the Scenes" data for any layers that you may have selected.

-77.652 42.564 Degrees
