

Press Release

March 19, 2010

**Wyoming County Health Department
5362 Mungers Mill Road, Building A
Silver Springs, NY 14550**

The Wyoming County Health Department is proud to present the *2010-2013 Wyoming County Community Health Assessment* - a comprehensive collection and analysis of data regarding health issues, available services and opportunities for action in Wyoming County.

This assessment was conducted to identify health issues of primary concern and to provide critical information to those in a position to make an impact on the health of our region - governments, social and human service agencies, businesses, healthcare providers and consumers - to name just a few.

The results enable us to more strategically establish priorities, develop interventions and commit resources to improve the health of our communities and the region.

Health is, and must be, an issue of concern and action for all of us. We hope the information in this assessment will encourage collaboration involving all agencies, across county lines, between usual competitors, and among funders to address the complex health needs of our residents.

If you have questions on the *2010-2013 Wyoming County Community Health Assessment*, please contact the Wyoming County Department of Health at (585) 786-8890 for more information.
