

WYOMING COUNTY REAL PROPERTY

ANNOUNCING OUR NEW
ONLINE ASSESSMENT PAGE
POWERED BY IMAGE MATE ONLINE

Try it now at: <http://wyomingpublic.sdgny.com/?cty=56Public>

WYOMING COUNTY REAL PROPERTY TAX SERVICES now offers easily accessible in-depth property information right at your fingertips. Our goal is to save your business time and eliminate confusion while accessing commonly requested information. The new page will feature a free, basic option in addition to a more advanced option for a minimal fee depending on your business needs. To celebrate our launch, we are excited to extend a free two week trial of our advanced option.

Feature	Free	Subscription

Advanced option site: <http://wyoming.sdgny.com/>

WHAT OUR PAGE OFFERS:

PROPERTY INFORMATION

View the property class, location, district and zoning information, assessment values, deed references, parcel size, photos, bank codes, equalization rates, and more.

OWNER & SALES INFORMATION

See sales that have occurred including the sale dates, price, prior ownership, the sales type, deed references, and more. Additionally, verify current ownership or a property and address information.

INVENTORY

Review information on structures located on a property. Explore building styles, square footage, the year built, the number of bathrooms and bedrooms, utility information, and more.

IMPROVEMENTS

Discover any improvements that have been made to a structure on a property including the year constructed and square footage.

GIS CLOUD, GOOGLE, & BING MAPS

Pin a property on the GIS Cloud map to view boundary lines and additional parcel data. Furthermore, view the property on Google or Bing Maps to get directions or access additional satellite imagery.

COMPARABLES

How does a property compare to other similar properties in the county? Select comparable data to be searched including lot size, building style, bedrooms, bathrooms, living area, and more. Choose to compare assessment or sales data.

TAX INFORMATION & CALCULATOR

Display details for taxes levied on a property including taxable values and exemptions received. Additionally, view historical tax information for prior years. Use the tax calculator to receive an estimate of the amount of taxes due.

TAX MAPS

View and print tax maps for a property to determine the location, dimensions of a parcel, the relationship of surrounding parcels, and key assessment information.
